```

The flowchart illustrates the process for retrieving real stockholder information. It begins with a 'START' terminal, leading to a decision point S60: 'ACCESS FROM PUBLIC COMPANY SERVER?'. If the answer is 'YES', the process proceeds to S61: 'AUTHENTICATION PROCESS'. Following S61, there is another decision point S62: 'PROPER USER?'. If the answer is 'NO', the process terminates at 'END'. If the answer is 'YES', the process continues to S63: 'RETRIEVE REAL STOCKHOLDER INFORMATION', then to S64: 'SEND REAL STOCKHOLDER INFORMATION', and finally terminates at 'END'.
